This Article is brought to you for free and open access by the Vertebrate Pest Conference Proceedings collection at DigitalCommons@University of Nebraska - Lincoln. It has been accepted for inclusion in Proceedings of the Fifteenth Vertebrate Pest Conference 1992 by an authorized administrator of DigitalCommons@University of Nebraska - Lincoln.

## CONFERENCE PARTICIPANTS

Participants came from 32 states, the District of Columbia, and from 11 other countries for a total of 327 registered attendees. The wide representation from the United States and countries throughout the world contributed to the success of the conference by providing a highly diversified group for the exchange of information on research progress, technological advances, management strategies, new products and materials, prevailing management philosophies, the protection of endangered species, and a range of other vertebrate pest topics.
